

Autumn Reparations 2023

September

Another application of 2ltrs Vision Ultimax SL 12.0.10/4 ltrs Vision Soilmax/2.5 ltrs Vision Hydroguard (in 4 tanks) should be made in the week commencing **4th September**.

1. Scarify to 8mm in one direction (say from clubhouse to road)
2. Scarify again to 5mm at 15° to the first scarify
3. Verticut to -2mm in the same direction as the first scarification
4. Overseed (approx. 1 bag over the whole green)
5. Top dress (approx.. 60 bags)
6. Drag in with a drag mat
7. Attend to any bare patches using a bucket of top dressing, seed and a handful of Hydrofusion granular wetting agent and firm with feet
8. Apply 2 bags of TX9.1.10 granular fertiliser
9. Irrigate if no rain imminent

All of this work should be done as early as possible in September on the same day, or on two consecutive days. The green should be shut for a couple of days afterwards but then may be opened for bowling again. This activity is planned to take place on **Monday/Tuesday 11th/12th September** with fallback dates in case of unsuitable weather of **18th/19th or 25th/26th**, **with green closure until the following Saturday**. The following pre-match cut on Saturday to be made without using the grass box to ensure that the fertiliser is not removed.

October

Apply 2.5 ltrs Reflex FE/0.75 ltrs Rocastem Parts A&B (divided into 3 tanks) in early October.

November

Vertidrain (Iain Bullock)

Apply 2 bags of T-Plex 3.0.6.
